Continuation of 5. does NOT place the application in condition for allowance because: Applicant argued that prior art did not disclose automatically configuring a second host computer to provide additional computational resources for the first host computer. As to applicant's argument Firooz disclosed that the configuration philosophy of Plug and play SCSI, in which device configuration is completely automatic, and may automatically change when a device is added or deleted. One ordinary skill in the art at the time of invention can interpret automatically configuring peripheral device as automatically configuring a host computer, in either case automatic configuration based on detecting certain parameters or thresholds.
